

Waterthane® Dust Mop Treatment

PRODUCT INFORMATION

Description: **Waterthane® Dust Mop Treatment** is a water-based emulsion formula designed to effectively remove the dirt & dust without leaving a residue. It is safe and easy to use and is conveniently packaged in ready to use quart bottles. Using **Waterthane® Dust Mop Treatment** along with a good maintenance program will keep your floors looking their best all year.

Caution- Floors may become slippery when wet. Use proper caution signs & remove spill or standing water immediately. This product is not recommended for exterior use.

Directions for Use: Application on sealed & finished floors

CAUTION: Never apply water or water-based cleaners directly on bare wood. Severe and permanent damage may occur.

1. Apply **Waterthane® Dust Mop Treatment** to a new or clean dust mop with a trigger sprayer.
2. Spray in an even coat across the entire mop.
3. Allow to AIR DRY overnight before use.

NOTE: Use an untreated dust mop if you are not able to allow it to dry properly.

4. Dust mop the floor several times a day if possible, once at a minimum.
5. Clean & launder dust mops at regular intervals, weekly if possible.

NOTE: Do not treat a soiled dust mop.

6. Wash dust mops with water & detergent in a commercial laundry machine, do not use fabric softener.
7. Vacuum walk off mats daily if possible.
